SUMMARY

Computer Science graduate with hands-on experience in software development through internships. Proficient in Python with understanding of object-oriented programming. Strong problem-solving and collaboration skills, eager to contribute to software engineering projects.

EDUCATION

Nalla Narsimha Reddy Educational Society's Group of Institutions	2022 - 2026
Bachelor of Technology	CGPA - 7.93
Trinity Junior College	2020 - 2022
Telangana Board of Intermediate Education	GPA - 9.6
Krishnaveni EM High School	2019 - 2020
Secondary School Certificate	GPA - 10

PROJECTS

Omni Summarizer: Summarizing Heterogeneous Digital Media	Oct 2025 - Apr 2026
Developed an AI-based application that summarizes heterogeneous digital content such as text, audio, and video into concise and meaningful information. Utilized Natural Language Processing (NLP) and machine learning techniques to extract key insights, reducing manual effort and improving efficiency in understanding large-scale data.	
Road Damage Detection Using YOLOv8	Oct 2024 - Apr 2025
Built an object detection model using YOLOv8 to identify and classify road damages such as potholes and cracks. Trained and evaluated the model on road image datasets to achieve accurate real-time damage detection and support automated road maintenance monitoring.	

INTERNSHIP

Virtual Internship - Eduskills	
Python Full Stack Developer Virtual Internship	Jan 2026 - Mar 2026
Completed a 10-week Python Full Stack Developer Virtual Internship, where I gained hands-on experience in Python, HTML, CSS, JavaScript, and database management. Strengthened my understanding of full-stack web development, software development practices, and application design through practical assignments and project-based learning	

SKILLS

Programming languages: Python, C
Web Development: HTML, CSS, JavaScript, SQL
Version Control: GitHub

Certification

Frontend Developer (React) - Hackerrank
Full Stack Web Development - CodeTantra
